THE SUPPOSED MURDER OF MISS PHARR -ARREST AND IMPRISONMENT OF DR. THOMPSON.

Our readers will recollect that some two months ago we published a statement of the peculiar and suspicious circumstances attending the death of Miss Pharr of Covington, by which guilt was attached to Dr. Thompson, her father's family physician. In making the statement public, we did it upon what we believed to be good authority, and expressed our opinion that if innocent of the crime imputed to him by public rumor, his own character called for an examination; if guilty, justice and the laws of the State demanded it. We were called upon by Dr. Thompson for our authors, and gave them up. He returned to Covington, and brought suit against several of the most respectable citizens of the place, laying his damages at a high figure. To protect themselves they demanded an investigation. A Coroner's Jury was snummend, the dead body exhumed and examined. A full detail of this examination we publish from the Lexington correspondence of The Rickmond Dispatch; it resulted in establishing the fact that she was pregnant, a fulus about five months old being found in the womb. The stomach has been sent to Philadelphia to be analyzed and tested to discover, if possible, whether pionon was used or not.

On dit, that suspicion of foul play was first excited by the attendants who laid her out for burial, observing signs upon ber dead body indicating prégnancy, and then the fact that she died in a few hours with violent convulsions. A box of ergot pills, which are used to produce abortion, was found in her room after her death, and she was also

Gact that she died in a few hours with violent convusions.

A box of ergot pills, which are used to produce abortion, was found in her room after her death, and she was also seen with a large pill given her by Dr. Thompson, which she kept for some time, and hesitated about taking. It is thought by some that the ergot pills were given her by Dr. Thompson to produce abortion; but failing in the attempt, all was given with the dammable attempt to dethought by some that the ergot pills were given her by 'Thompson to produce abortion: but failing in the attempt, the large pill was given with the damnable attempt to destroy her life. On dit further, that Dr. Thompson had been engaged to her for some time, but told some of his friends that he did not intend to marry her. This statement presents the case in its most unfavorable light so far as Dr. Thompson is concerned. By his friends it is said that it is a base slander, originating in the jealousy of enemies and rival physicians of the place.

From The Granding (Fa. 1 Ex.

that it is a base slander, originating in the joslousy of enemies and rival physicians of the place.

The sudden death of Miss Agnes Pharr, the designter of the esteemed Prosbyterian clergyman at Covington, Alleghamy County, last winter, was remarked upon by the proses at that time. She was in perfect health in the morning, but died suddenly in the afternoon, under circumstances peculiar to death from strychnine.

Suspicion was aroused and a meeting of citizens was called. Into this Dr. Thompson strychnine.

Suspicion was aroused and a meeting of citizens was called. Into this Dr. Thompson, the family physician of the Rev. Dr. Pharr, was invited. He protested innocence, and also a desire to have the body examined, that he might thereby clear himself of suspicion. With the understanding that such examination would take place the meeting dispersed. But no examination would take place the meeting dispersed. But no examination would take place the meeting dispersed. But no examination would take place the meeting dispersed. But we cannot not provide the control of the cuban Courts and authorities in this case!

LOSS OF A BALTIMORE BARK. The bark Virginia, arrived yesterday from Trinidad de Cubs, reports that on the 8th instant, she spoke, in lat. 36° 50', lon. 73° 10', Bremen ship Hermine, from Richmond for Bremen and took from her the Captatn (Bur-man) and crew of the bark Crisis of Baltimore, which was upset the night previous at 8 P. M., in a violent gust of wind, from S. W. to N. W., and in ten minutes she was full of water, and sank at 10 P. M.; the Captain and crew were in the boat all night and in the morning were picked up by the Hermine: one boy was missing and is supposed to have gone down with the wreck. The C. was hence bound to Baltimore, and Capt. B. reports that at the time of being struck, he had little or no sail set. The Virginia reports taking the same squall, which split sails, &c., and Capt. T. says it was the most violent he ever experienced.

The reduction of 9s in the whole number of deaths for a single week is peculiarly gratifying. Cholera is less by 24 than on the previous week, proving conclusively what we remarked a few days since with regard to its virglence and extent. There has been a decrease of 35 in Convulsions, 21 in Dysentery and 5 in Diarrhea. During the corresponding week in 1849, there were 1,011 deaths, of which 423 were from cholera. The population was then but five-sevenths of the present amount. About fifitythree per cent. of the above bill is of persons under ten years of age. Nearly five-twelfths were of foreign

the destruction of the straw occurred.

About 9j o'clock on Saturday night a fire broke out in the three-story brick building in the rear of Nos. 131 and 133 Mercer-st., occupied by Mr. E. V. Hanghwout as a china factory. The firemen were soon on the ground and by their united exertions speedily extinguished the fiames.

ATTEMPTED CERCUTORS.—18 years of age, 18 years of age, 200 cm. The stock on the various floors was considerably damaged. and it is thought that the loss will not fall far short of \$2,500. The building is insured for \$2,000 in the Pacific Insurance Co., and the stock for \$2,500 in the Broadway Irsurance Co.

The building was used for the decorating of fancy china ware of the most costly description, and to carry on the business, it became necessary to have extensive ovens and furnaces for the baking and drying of the china after the painting.

and Mr. Lee, the foreman of the shop, had a fire built in it for the purpose of giving the new brick a thorough dry-ing. It appears that there was some defect in the flues, and the wood work connecting therewith took dre in the basement, the flames being carried up by the draft through the building to the third floor.

Had this fire broken out at a later period in the night,

the loss would doubtless have been much greater. FIRE MARSHAL'S INVESTIGATION BEFORE

THE POLICE JUSTICES.

FIRE CORNER OF SPRING AND ELIZABETH-STS.

The evidence in this case shows that the fire originated in the feed-store of John Muhlenbrink, who is also the occupant of the grocery-store. The alarm was given, and the fire was discovered among the hay. The door of the feed-store had been left open in consequence of the hook being broken, and the fire had been communicated be-yond a doubt purposely by some person from the street. There are a number of young men of had character who hang around this grocery-store, and the proprietor had on several occasions driven them away, and they had sworn to have revenge, and it is the impression that some of these fellows set the place on fire to "get even," as they termed it. "with the Dutchman."

Mr. Muhlenbrink has occupied the said premises for five years past, and was doing a profitable business. He was insured on his stock for \$1,000 in the .Etna Insurance Co., but no insurance on his feed-store or furniture. He will lose more than \$1,000 by the fire. This fire took place on Wednesday afternoon, the 9th inst.

The evidence in this case as far as it has progress before the Fire Marshal, shows that on the alarm of fire being given a small flame was first seen ascending from south-west corner of the roof near the gutter fronting on Broome-st. It spread from that corner rapidly up the root to the cupola, and before the firemen could get fully to work the cupola and roof was all in flames. It is believed by the witness that the fire originated from some lighted sparks lodging in the gutter of the church, blown from the Spring-st, fire on the same afternoon.

FIRE IN FINE-ST.

On the afternoon of the 5th inst. a fire occurred in the wool store of J. Ripley & Cameron, Nos. 63 and 70 Pinest. The evidence in the case as far as progressed with, shows that the two porters, McDermott and Katen, were the last persons in the 4th story, in which the fire was discovered. These two porters and the clerk, James Green, were sent to Greenwich st. to get out some wool for shipping, and in about fifteen minutes after, the fire was discovered. There was no one left in the Pine st. store but Messrs. Ripley & Cameron. It was also shown that any person from the street could go to the upper loft, No. 70, without being seen from the office, No. 68, in which Messrs. Ripley & Cemeron were transacting their business. The porter cannot give any account as to the origin of the fire, but he thinks it looks as if some one might have set the premises on fire. He does not think the wool took fire of itself. Mr. Cameron was about leaving the store to go into the country, and while just by the door some one in the street called to him, and said his store was on fire. Mr. Cameron ran up stairs, and found that the 4th floor was all in a blaze. He could not go up any nearer than the 3d floor.

On the night of the 3d instant a fire broke out in a carpenter's shop occupied by a Mr. Harper, situated on a lot in Flity-ninth-st., near Second-av. The flames from the shop communicated to a small frame dwelling and burnt it lown, belonging to John Morrisey, who also resided on the same lot in a small frame tenement, which the fire did not reach. The burnt building was insured for \$400 in the Beekman Insurance Company. The evidence showed that but little doubt existed but that the fire was 1 1 the work of incendiary. The facts, however, did not point sufficiently to warrant the arrest of any person. FIRE IN GREENE-ST.

On the morning of the 2d inst. a fire was discovered in the cellar of a two-story frame building in the rear of No. 163 Greene-st., occupied by Wm. H. Reed on the first floor and a French family up-stairs named Jacquin. The evidence in this case showed that the fire was the house in the cellar, among a lot of kindling wood, directly under the bedroom of Mr. Reed, and so rapidly did the flames ascend that the French family up-stairs narrowly escaped with their lives, as the flames cut off their escapby catching to the stairs. It was further shown that the ellar doors were left open, andthat any person from the street could have free access to them. FIRE IN THE ASTOR HOUSE STORE.

On the evening of the 5th inst., a fire occurred in the store window of No. 1 Astor House, occupied by Mr. George T. Green, as a gentlemen's furnishing store. The evidence howed that the fire originated from the articles in the window, accidentally taking fire from the gas light. There were four burners lighted in the window at the time, and a puff of wind is supposed to have blown a handker-chief into the flame which set the other articles on fire. Mr. Green estimated his loss at \$579. The origin of the fire was evidently accidental. FIRE IN WILLIAM-ST.

On the 2d inst., a fire was discovered at No. 162 William-st., kept by Wm. J. Keen, as a boarding-house and bar-room. The fire in this case was found to be between the lath and plaster in the ceiling, just above the bar. It was extinguished with but little damage. The origin of the fire is supposed to have been caused by the mice or rats dragging matches between the lath and plaster. No other cause could be assigned. Mr. Keen was insured on his property to the amount of \$1,200.

of continuing the double track from Williams Bridge to White Plains is progressing rapidly. The Westchester News says: At Scarsdale a new line has been struck altogether with a view of avoiding the curve in the road at that place. Other curves along the line of the road are also being greatly modified. At Bronxville, ground has been purchased for a "turn table," or rather a triangular switch, in view of running a number of the local trains between that point and the city in order to accommodate the travel from Fleetwood, Hunts Bridge, Glen Park, and Makefield. The new stone and truss bridges over the flats at Harlem are approaching completion. The work is of a substantial character, and we doubt not will allay the fears of the most timid traveler. The truss bridge over the Harlem River is being inclosed. It will have a metal roof, with projecting eaves. The sides will be boarded up to within about two feet of the roof. The space being left for light and the free exit of the smoke, while rain will be excluded by the projecting roof.

ATTEMPTED OUTRAGE ON A PENALE BY MEANS OF CHICHOTORN.—Yesterday afternoon a German girl, about 18 years of age, named Catherine Hamp, appeared before Justice Clerk and made a complaint against Dr. Joseph Keller, a druggist in Seventh-av., between Thirty-first and Thirty-second-sts., in whose employ she was a domestic, charging him with having, on Thursday last, administered, by rubbing on her head and face, chloroform, and by causing her to inhale it, which produced a sleepy effect upon her, and when in that condition attempting to violate her person, which he was prevented doing by her screams, which brought to the room a female named Marie Mertz. The evidence of the last named female was also taken and corroborated the statement of the complainant as regards the commission of the assault. A warrant for the arrest of the accused was issued by the magistrate and placed in the bands of a policeman to serve.

FATAL ACCIDENT ON SHIPBOARD.—Henry Colgare, second mate of the ship Hudson, lying at Pier No. 16 East River, was instantly killed on Saturday afternoon, in consequence of a case of goods which was being hoisted from the hold having slipped from the sling and fallen upon him, fracturing his skull and crushing his body in a terrible manner. Coroner Hilton was notified to hold an inquest upon the body, but on going to the vessel he found that it had been placed in charge of an undertaker for burial. The coroner caused it to be taken to the Hellevue Hospital, and will hold an inquest upon it to-day. Deceased was a German by birth, 34 years of age, and has left a wife and two children residing at No. 79 Greenwich-st.

FATAL Accident .- Pierre Maguin, a carman, died on Saturday, at the New-York Hospital, from the effects of injuries received on the day previous by a box of goods falling from his cart upon him. He was engaged at the time, in carting the goods from the public store. Coroner Hilton held an inquest upon the body, and the jury readered a verdict of death from a rupture. Deceased was a native of France, 40 years of age.

FOUND DROWNED,-The body of a young woman was found yesterday in the North River near the foot of Eighty-sixth-st. She was about 18 years of age and appeared to have been in the water for several days. The deceased was dressed in a black calico gown with white spots, black straw hat with black trimmings and black vail, black silk apron trimmed with velvet, and white underclothes. A portmonnaic was found in the pocket of her dress containing 21 cents, a gold hoop car-ring and a bill for \$1 worth of black bombazine purchased of Lord & Taylor in Grand-st. She had a bracelet on one wrist and a plain wring on one of her fingers. Coroner Gamble held an inquest upon the body and the jury rendered a verdict of death by drowning. Deceased is supposed to have been one of the females who were drowned on Taesday evening by the upsetting of a rowe-boat while crossing from Fort Lee to Carmanville.

Stanley, who styles himself the American Sailor, commenced a lecture in the City Park, opposite the Navy Yard. An audience of several hundred men, women and children gathered about and listened to his discourse without offering to molest him, and so far as these proceedings were concerned all passed off in decency and order. At the conclusion he thanked the audience for their attention and departed. A portion of the crowd followed him a little way up Flushing av. and then fell back. A rush was made by the crowd on the corner of Park. av. and Navy.st., more for mischief than anything else, and several men rushed over, which was made the occasion of a small row and several knock-

The Newark Mercury has been taking a look at the "Know-Nothings," and says:

"The meeting of the State Wigwam of the Americau (Know-Nothing) Association, which was held in this city on Wednesday, was attended by some 150 representatives from various parts of the State, and a finer body of men has seldom ever assembled. Their appearance was that of men who felt themselves enlisted in a great and important work; and we feel pretty well persuaded, now that we have seen these acknowledged Know-Nothings, that the good and pure have little to foar from their organization. The corrupt and unprincipled, however, we should judge have little to hope from its clemency.

LAW INTELLIGENCE.

SUPERIOR COURT—Special Team—Before Judge Hoffman.—

Decisions.

POINT OF PERCICK.

Eliza Jane Busky, Administratrix, act. Wan. Wright and Geo. W.

Wright.

By the Court—Prior to the amendment of 1853, this Court held that either all the decendants must be residents or all be personally served within the City, to give jurisdiction under the 33d section.—(Delafield agt. Wright, Code Rep., N. S., 183.)

By the amendment, the words "or where one or more "of several defendants jointly liable on contract reside or "are personally served with the summons within these cities respectively," were added.

In the present case the members of the firm resided and their business was conducted in Cincinnati, Onio. One of them died, and letters of administration have been issued to the plaintiff here.

The surviving partners, the defendants, confinue to reside in Ohio, but one of them being temporarily here, has been served with a summons in an action for a settlement of the partnership affairs and an account and payment.

The objection to the jurisdiction is taken by answer, and the case was submitted at special term.

I do not think that this is such a case of a joint liability on contract as the statute intends. It may be proper to say that the right arises out of the contract of partnership, and it is possible that the result may show a joint liability of the two as to some of the property: but, on the other hand, it may turn out that the deceased partner has a claim for a balance against one of the survivors, and none against the other, or even be indebted to him.

I think it should appear affirmatively and distinctly that the liability is joint and upon contract.

The result is that the complaint must be dismissed.

Croler agest. Drew. Demurrer allowed, but 30 days granted to plaintiff to amend complaint, on the payment of costs of one term.

cob dock, at the Navy-Yard, Brooklyn, a quantity of white and yellow pine timber, were placed upon examination on Saturday.

Daniel H. Delavan testified to having charge of all the Government property at the Navy Yard, and to have had such charge since May, 1853; discovered a short time ago that about \$1,000 worth of timber had been taken from the cob dock; some of it was recovered from Messrs. Pollion, dealers in timber; it was identified by Mr. Simmons.

On his cross-examination the witness stated that the timber was first missed about the first of this month; ascertained it from the Inspector's book: I know of my own knowledge that there was timber at the dock; cannot fix the value except from others; I never heard of any timber floating away of itself; there was no timber at the dock except what was owned by the Government.

Joseph Simmons testified to being inspector at the Navy Yard, and to having been so for over a year; had, supervision of the timber at the cob dock; a quantity of it il should think 3,000 feet, worth \$1,000.) was taken away in June and July last; I instituted inquiries as to its loss, and went around a good deal myself, and gave directions to men to look about in Williamsburgh, Brooklyn and New-York; finally, one of the men told me he had discovered some at Messra. Polloin's yard; I went there and identified it; it was white and yellow pine timber, and worth about \$300; I saw two sticks some days after that in New-York, near the box dock, tied together with no one to claim them; they were worth about \$30; there is about \$600 worth not found yet.

On his cross-examination witness stated that he goes to

they were worth about \$30; there is about \$300 worth about found yet.

On his cross-examination witness stated that he goes to the cob dock sometimes three or four tisses a day, and sometimes once a week; about the middle of July missed some timber from the dock; on 26th July missed five sticks yellow and two white pine: a week before that I missed thirteen sticks yellow pine; the timber is floated into the dock and there are booms which open and shut and guard it; the locks and chains of those booms have been often broken; I found those two sticks at Mesers.
